A Word from the Marina Committee

As you all know and have seen, there has been a lot of work being accomplished in the Marina. Around the middle of February, we began pulling the bulkheads out and it took until April 1st for that task to be completed. We have also finished installing all the remaining braces on the A dock walkway, did some water line repairs and replaced some of the bad finger docks on C and D docks. We received extra help from Albert Frank for donating the use of a backhoe and operating it, and from Bill Heiden for donating his time to be the eyes for the operator. There have been countless other members that have put in a lot of man hours, completing all the work that had to be done around the club in the last 3 months. Member John McKee will be repairing all the lighthouses. Some have been fixed and will be put in place of the bad ones. We are still working around all the docks. Remaining work includes putting in a new water line to D dock, more fingers need to be put in and various other tasks.

If you can make it on a Saturday or Sunday, please Contact Jack Gresch (610-721-3807) or Scott Childs (610-656-7428) from the Marina Committee with your availability.

Thank you to all of you that have been helping and to all of you that will be helping. (continued)

Also, a big thank you to all of you that have given your time on the weekends to cook lunch for the workers for the past 3 months. Once again, thank you to everyone for all your help with the Marina work project.
